

## Confirmation Mentor

It is expected that each student will have a growing relationship with another caring Christian adult (mentor) who is active and involved at New Life. It is important to have a mentor relationship with someone at the church that knows who you are and when you are here, and when you are not.

The confirmation mentor is a person who helps and encourages the student with their faith & self/faith & others projects as well as attends confirmation classes when designated and maintains an ongoing, faith affirming relationship with the student during their faith formation years. Mentors should not be a family member. Family members are already a part of the students faith life. What we are hoping for is that this second person will be an active influence in the faith life of each student.
